2017 PRODUCT LIST

QUALITY PRODUCTS

HIGH INTELLIGENCE

Xi water, I love the water, water conservation, starting with me. Water conservation is an important measure to implement the sustainable development strategy.

CUT COSTS

Both revenue and cutting expenditure, throttling priority, pollution control-oriented, scientific open source utilization.

SAVE WATER

Water conservation, the benefit of mankind, benefits to the present power future generations.

CHERISH EVERY DROP OF WATER

Please cherish the survival of our source of life—water

COMPANY PROFILE

Our factory is a professional and modern ceramic factory which specializes in the production of "JIXIANG" shampoo basin, our products are used the import chemical materials and excellent porcelain clay, made by new oil stove burning and the applications of modern design make the product series be good in quality, beautiful & practical with refined and bright glaze.

From many years, we have been always working for the development and production of shampoo basin to provide our users with fashionable, comfortable & luxurious products. Now over 30 product patterns are available, and our development has tremendous technical strength to process by samples or drawings. Our products which are well received by customers are sold to Europe, America and cities in Asia. To be indebted and thank for the support of customers, we'll always supply each client with high-products, a reasonable price and excellent services.

Welcome all customers to process and manufacture with samples or drawings.

WORKSHOP

360 ° manufacturing show

Have the high quality to be able to win the prestige in the society. JIXIANG ceramics from select material to the end product quality testing, each link all strictly check, is responsible by the specialized technical personnel. JIXIANG ceramics product all strictly according the international standard produce, no matter in the craft, the quality check-out facility, the method has all achieved the international advanced level.

PROMOTING

the kiln

After about 14 hours of time, the temperature reached 1300° soil embryos fired toilet after reaching all-ceramic kiln firing is completed

Art basin

SERIES

The pursuit of modern, keen on the simple design.
Their broad vision, unique taste, thirst for knowledge.
The pursuit of simplicity is the best show of perfectionism.

Reclining BASIN SERIES

If life could be composure, magnificent but not luxury, fail but not discouraged, succeed but not pride, that's how superb boundary. In short it is just a sentence of harmonic beauty of soul, as common as a piece of ceiling overhead. It's the ceiling what always pave inches of magic world and a great good state, just appreciate it leisurely.
